8C Class Application Form 2023 (non enrolled student)

Student Name

8C is an extension class based on the 6Cs, which are the future- focused skills of:

- Communication (listening and sharing ideas or information in a clear and meaningful way)
- Collaboration (working with others to produce something new)
- Creativity (expressing, thinking, and doing things in new ways)
- Critical thinking (problem solving, analysing, and questioning information)
- Citizenship (becoming more globally aware and proactive in the community)
- Character (being a responsible, resilient individual with a desire to learn and capacity to empathise with others)

Students in 8C will be offered a differentiated and integrated curriculum that incorporates Design Thinking and enrichment options to best meet the needs of motivated students and independent learners, inspiring students to be leaders of their own learning.

Required Details

When applying for placement in the 8C class, please **provide 3 samples of the student's work**. These samples may demonstrate the student's ability to understand and interpret information, think creatively, communicate effectively, solve problems, work collaboratively, manage deadlines and engage with sophisticated ideas and concepts. While these samples may be work the student has completed at school, they may also include samples produced in different situations and contexts (e.g. a student's hobby). Generally, copies of NAPLAN results, a school report or competition results are NOT considered work samples. The attached work samples may be in a range of media and forms (e.g. written text, video, music, photographs, multimedia, etc).

In addition to the work samples, please complete the **8C class Supporting Statement** on the next page.

All correspondence should be marked **Attention: Mrs Shortland, Deputy Principal**.

8C Class Supporting Statement

Student name: _____

Explain the reasons why you believe that participation in the 8C class would enhance your engagement with learning.

In your statement, include examples of times you have exhibited some of the 6Cs (future focused skills) to help you achieve your learning goals.

This statement should be handwritten by the student.
