7C is an extension class based on the 6Cs, which are the future- focused skills of:

- Communication (listening and sharing ideas or information in a clear and meaningful way)
- Collaboration (working with others to produce something new)
- Creativity (expressing, thinking, and doing things in new ways)
- Critical thinking (problem solving, analysing, and questioning information)
- Citizenship (becoming more globally aware and proactive in the community)
- Character (being a responsible, resilient individual with a desire to learn and capacity to empathise with others)

Students in 7C will be offered a differentiated and integrated curriculum that incorporates Design Thinking and enrichment options to best meet the needs of motivated students and independent learners, inspiring students to be leaders of their own learning.

### Required Details

When applying for placement in the 7C class, please **provide 3 samples of the student's work**. These samples may demonstrate the student's ability to understand and interpret information, think creatively, communicate effectively, solve problems, work collaboratively, manage deadlines and engage with sophisticated ideas and concepts. While these samples may be work the student has completed at school, they may also include samples produced in different situations and contexts (e.g. a student's hobby). Generally, copies of NAPLAN results, a school report or competition results are NOT considered work samples. The attached work samples may be in a range of media and forms (e.g. written text, video, music, photographs, multimedia, etc).

In addition to the work samples, please complete the **7C class Supporting Statement** on the next page. All applications should be emailed to [hawkesbury-h.school@det.nsw.edu.au](mailto:hawkesbury-h.school@det.nsw.edu.au) or submitted via the Front Office by 3 November 2023.

All correspondence should be marked **Attention: Mrs Shortland, Deputy Principal**.
